

On-Line Retail Development Manager

Our Requirement

August 2019

This role can make a real difference to our future. We need someone with energy and enthusiasm to join us and help us do more to help groups in the poorest countries worldwide strengthen their livelihoods through beekeeping.

As part of our friendly small fundraising and communications team the on-line shop development manager will lead our drive to raise funds through on-line sales.

We currently have a small on-line shop attached to our website but recognise the opportunity for the right person to grow and develop it. You will need experience with Word Press and e-commerce templates in order to:

- Review the online shop and the order processing/payment process
- Create pages for on-line sale items
- Work with the fundraising and communications team to drive visitors to the online shop.
- Help with order fulfilment at busy times

You will be joining an enthusiastic group of volunteers committed to the success of Bees Abroad. Many of us are beekeepers but it is not a requirement. We have a small administrative office in Wotton under Edge in Gloucestershire but we are a virtual organisation all based at home.

Interested?

Please email info@beesabroad.org.uk or 'phone 077887 47652.
